QUALITY &  
PERFORMANCE  
FOR OVER 20  
YEARS!**

# D10 SERIES

## GENERAL FEATURES

The Waterworks™ D10 is one of the only coolers on the market that can be easily converted from bottle to POU and has been a favourite in the rental industry for over 20 years!

**COLD TANK:** 3.2 litre type 304 stainless steel for superior chilling. The highly polished surface is easy to clean and maintain.

**HOT TANK:** 1.8 litre type 304 stainless steel with 500 watt sheathed heater ensures temperature control. On/off switch is easily accessible at the back of the unit.

**CABINET:** Gloss white colour. Top and front panels are treated ABS plastic. The side panels are zinc coated steel covered in polymer polyester resin.

**TAPS:** NSF approved durable polypropylene self-closing design. Fully recessed, lever type with fast flow. Hot safety tap comes as standard on Hot/Cold models. Optional push taps now available.

**POU CONVERSION KIT:** The easily installed POU Kit turns the bottle top cooler (B10) in to a mains connected unit. Can also convert back to bottle top.

## OPTIONAL EXTRAS

**PNP FILTER SYSTEM:** The Waterworks™ PNP filter range is available in single, twin or triple. With the swing & twist design and automatic water shutoff, filter changes are simple, no need for tools or to turn off the mains water.

**CD2 - CUP DISPENSER:** The CD2 is perfectly colour matched to suit the B5, B10, D5 & D10 coolers. Waterworks™ paper & plastic cups are made to fit the CD2.

## INSTALLATION

To be installed in accordance with local plumbing laws. Failure to install a certified Pressure Limiting Valve will void warranty.

**Waterworks™ Australia**

ABN 91 902 793 936

48-50 Neumann Road Capalaba Queensland 4157

Bulk Warehouse: 53 Neumann Road Capalaba Queensland 4157

As part of Waterworks™ Australia's policy of continuous improvement, we reserve the right to alter specifications at anytime without notice.

## SPECIFICATIONS

**REFRIGERATION:** Gas R134A. The refrigerant flow is controlled by a capillary tube which has no moving parts. The compressor is hermetically sealed with an automatic overload protector. Lubricant is not needed.

**ELECTRICAL:** Certificate number 160793. 220v 50hz single phase. A 1.5 metre power cord is supplied. Full load current is 1.2 amps.

**CONDENSER:** Quietly operating, air cooled with no moving parts.
