

# HYDROBOOST

DRINKING FOUNTAIN & BOTTLE FILLING STATION

**NEW!**

*The thirst quenchers!™*

The Halsey Taylor HydroBoost Bottle Filling Station delivers a clean quick water bottle fill and enhances sustainability by minimizing our dependency on disposable plastic bottles. Vandal-resistant cooler and bottle filling station in a consolidated space saving DDA compliant design. Push button activation with automatic 20-second shut-off timer on bottle filler.

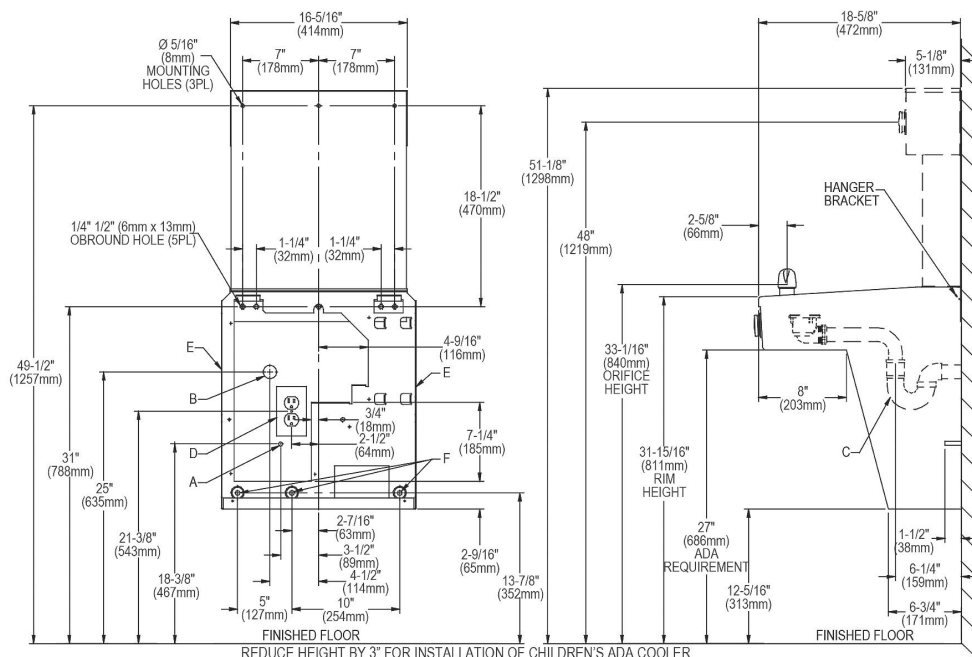

### Product features

- Ideal for heavy-use installations such as educational and indoor recreational facilities.
- Vandal-resistant, push-button activation for both the bottle filler and the water cooler.
- Fill rate is 249.84 LPH.
- Green Counter™ informs user of number of 600ml plastic water bottles saved from waste.
- Laminar flow provides clean fill with minimal splash.
- Real drain system eliminates standing water.
- Vandal-resistant bubblers feature chrome-plated integral hood guard to prevent contamination from other users, airborne deposits and tampering.
- Rated for indoor/outdoor use
