- ✓ Extremely Reliable
- ✓ Energy Efficient
- ✓ Simple to use and Install
- ✓ Power Saving
- ✓ Comprehensive Warranty Service
- ✓ Excellent Product Support

SUPAKWIK ON WALL BOILING WATER HEATER

GENERAL FEATURES:

AUSTRALIAN DESIGNED AND MANUFACTURED

Whether you choose the Supaboil or the Kwikboil heater, you can be confident that you are purchasing a world class product, designed and manufactured in Australia since 1999.

EXTREMELY RELIABLE & ENERGY EFFICIENT

All materials and componentry used in the manufacture of Supakwik's products are of the highest quality, ensuring the maximum life of the product. With the ability to keep the water within 0.5 of a degree of the set point, you don't waste energy by over heating the water and generating steam. This means boiling water will be ready as you need it, at the precise temperature.

SIMPLE TO USE & INSTALL

The product is simple to use and maintain. The ability to interchange the Inlet & Vent fitting locations makes positioning and connection a very simple task. No more crossing over pipework when replacing existing product. This feature also makes maintenance a breeze.

POWER SAVING

By utilising Motion Sensing our Supaboil series provides industry leading power saving technology.

COMPREHENSIVE WARRANTY & SUPPORT

We provide an excellent warranty service in the unlikely event you need it. (1 year on parts and labour and an extra year on parts.)

SA Kwikboil Range - Square Cornered, Bright White/ Stainless Steel Case

MODEL	DELIVERY	CAPACITY	RECOVERY	POWER RATING	DIMENSIONS
